Cindy,

Gary Moore (EPA R. VI OSC) has been asking me since early this morning for some sort of public statement on odors. I tracked this down with IH and got this email. Want to check with you before giving this to Gary. Please advise.

Carlos

Stan,

Not exactly an oil sample from the spill, but this might be helpful.

onsite

Cindy,

We have a toxicologist at the IMT in Houma that is currently working on a communication to be provided to the JIC as per your request. From what I can tell, we have no crude oil analytical data at this time. The toxicologist is Dr. Glenn Millner from CTEH.
